ERRATUM Open Access

Erratum to: Fatty acid extract from CLAenriched egg yolks can mediate transcriptome reprogramming of MCF-7 cancer cells to prevent their growth and proliferation

Aneta A. Koronowicz^{1*}, Paula Banks¹, Dominik Domagała¹, Adam Master², Teresa Leszczyńska¹, Ewelina Piasna¹, Mariola Marynowska¹ and Piotr Laidler³

Erratum

Upon publication of the original article [1], it was noticed that the Contributions section was incorrect. This has now been corrected below in this erratum.

Contributions

AAK, AM, and PB made substantial contributions to the conception and design of experiments. DD, EP, MM, PB, and AAK participated in performing experiments. AAK and AM participated in the analysis and interpretation of data. AAK and PB participated in drafting the article. PL and AM participated in critically revising article for its important intellectual content. TL gave the final approval of the version to be submitted and any revised version. All authors read and approved the final manuscript.

Author details

¹Department of Human Nutrition, Faculty of Food Technology, University of Agriculture, Krakow, Poland. ²Department of Biochemistry and Molecular Biology, Medical Centre for Postgraduate Education, Warsaw, Poland. ³Department of Medical Biochemistry, Jagiellonian University Medical College, Krakow, Poland.

Submit your next manuscript to BioMed Central and we will help you at every step:

- We accept pre-submission inquiries
- Our selector tool helps you to find the most relevant journal
- We provide round the clock customer support
- Convenient online submission
- Thorough peer review
- Inclusion in PubMed and all major indexing services
- Maximum visibility for your research
